

ISC Pricelists (Effective January 1, 2009)

MapDotNet Platform Licensing

MapDotNet Platform is the licensed commercial off-the-shelf product for rapidly building mapping applications for the desktop or the web using Microsoft's .NET framework.

MapDotNet Platform

Description

MapDotNet is the ultimate platform for developing high performance mapping applications. Imagine a new level of user experience, where the functionality of the latest .NET technologies meets the sleek design of WPF, Silverlight and ASP.NET AJAX. With its extensive support for databases like SQL Server 2008 and consumer map services like Bing Maps for Enterprise, MapDotNet completes a modernized, Microsoft-based GIS platform.

Costs

MapDotNet Developer Subscription \$1,000 (Annual)

The MapDotNet Developer Subscription licenses the MapDotNet UX or MapDotNet Server 6.5 Web Services for development, test or staging machine. The MapDotNet Developer Subscription licenses keys are generated by ISC and bound to a single server (NET BIOS) name. MapDotNet Developer Subscription also licenses MapDotNet UX Engine for development. MapDotNet Developer Subscription entitles MapDotNet licensees to version upgrades for the licensed machine for one year.

MapDotNet Runtime \$3,800

The MapDotNet Runtime licenses the Web Services of the MapDotNet UX or MapDotNet Server 6.5 products. The licenses keys are generated by ISC and bound to a single machine (NET BIOS) name.

MapDotNet Runtime Maintenance \$760 (Annual)

MapDotNet Runtime License Maintenance entitles MapDotNet licensees all version upgrades for the licensed machine for one year. MapDotNet Runtime Maintenance is due the first year.

MapDotNet UX Engine Runtime See table below

MapDotNet UX Engine Runtime licenses the deployment of applications built with MapDotNet UX Engine to be deployed for production use on machines.

MapDotNet UX Engine pricing is based upon quantity price breaks and an annual maintenance fee. The MapDotNet Developer Subscription license keys are generated by ISC and bound to an Application Name.

No. of MapDotNet UX Engine Licenses	Price Each	Annual Maintenance	Maintenance Price Each	Total Each
1-9	\$250	20%	\$50	\$300
10-24	\$200	20%	\$40	\$240
25-49	\$150	20%	\$30	\$180
50+	\$100	20%	\$20	\$120

Virtual City/Economic Development website

\$10,000

The Virtual City/Economic Development websites are complete mapping websites for users to configure and deploy with their local GIS data. The Virtual City/Economic Development website is built for visualization and data mining GIS datasets like parcels, zones, and more.

MapDotNet Local Government Enterprise License Agreement

\$9,310

The MapDotNet Local Government Solution Enterprise License Agreement is available to local government agencies in municipalities with a maximum population of 500,000 individuals as established by the [United States Census Bureau](#).

The following software licenses and services are included in this offer:

- 3 MapDotNet Runtime Licenses
- 3 MapDotNet Developer Subscription
- 1 Virtual City/Economic Development website
- Software maintenance for three years
- Unlimited use of the MapDotNet developer forums
- 10 hours of telephone support from a GIS .NET Sr. Developer which may include up to 5 hours of live training delivered over the Internet.

Training

MapDotNet Platform Training

Description

MapDotNet Platform Training is an all-inclusive onsite 3-day classroom training course that prepares software developers for the development of Web 2.0 mapping applications. The training covers concepts of Web 2.0 mapping application development, building MapDotNet map files, deploying MapDotNet Web Services and building Web applications with the MapDotNet SDKs. The course is limited to 5 students and includes training materials.

Cost

MapDotNet Platform Training	\$7,200 (plus travel and expenses)
-----------------------------	------------------------------------

MapDotNet Professional Services

Custom application development

Description

ISC provides project staffing for customer .NET application development needs around the MapDotNet Product.

Rate

GIS Project Manager	\$115 - \$150 per hour
GIS .NET Sr. Developer	\$115 - \$125 per hour
GIS .NET Developer	\$99 - \$114 per hour
GIS User Interface Sr. Designer	\$86 - \$125 per hour
GIS User Interface Designer	\$75 - \$85 per hour

Onsite support

Description

ISC provides onsite support for customer .NET application development needs around the MapDotNet Product.

Rate

GIS Project Manager	\$200 per hour
GIS .NET Sr. Developer	\$200 per hour

Adhoc developer support

Description

ISC provides adhoc developer support for customers need immediate help with MapDotNet or general .NET development. Support is directly available by phone or email. Support time is to be used in 15 minute increments.

Cost

GIS .NET Sr. Developer (24 hr < Response Time) \$200 per hour

GIS .NET Sr. Developer (24 hr > Response Time) \$125 per hour
